### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Philip Summa on 05/03/04.

The application has been amended as follows:

In **Claim 15**: delete [immediately after one another].

In **Claim 17**, in the third step, "thereafter drying the sample ...", delete [and oil];  
after this third step insert the step:

-- reweighing the sample and sample pad after drying the sample; --;

before the last step, "quantitatively determining ..."

insert the step:

-- calculating the percentage of moisture in the sample based on the weight change during drying, --.

In **claim 28**: add -- reweighing -- after "drying" and -- calculating -- after "comparing"

Cancel **claims 18, 21, 31-33, and 35**.

---

The **allowed claims** are **6-8, 12, 15-17, 22, 24, 26-28 and 34**. The new numbering of claims is 1 through 13.

The following is the reasons for allowance: the prior art does not teach or fairly suggest measuring moisture and fat and oil content in a sample by placing it into the pad where it is melted by heating in the microwave with eliminating excess of moisture, and calculating the moisture from weighing process before and after drying and placing the

same sample into NMR for measuring fat and oil content through NMR relaxation measurements.
